### Inquiry Into Riot Cause

TOKYO, Jan. 26.-(A)-Eighth army headquarters today was investigating to find out what caused a riot among U. S. occupation troops on Hokkaido Island Sunday, in which one soldier was killed and five wounded.

The incident occurred in an enlisted men's club at Camp Crawford. Military police of the seventh infantry division quelled the riot with gunfire. Four soldiers were shot, one fatally. A fifth was stabbed, and a sixth was cut when he dived through a window.

The army reported that three of those shot were members of the veteran 11th airborne division, which is leaving Japan for Camp Campbell, Ky., early next month. Identities of those involved were

The army said the riot apparently broke out when "several soldiers" began throwing empty cans, bottles and chairs. The club manager closed the place, but the soldiers refused to vacate. The manager summoned military police, and three showed up.

The army said the soldiers ignored the MP's orders to leave.

## Set Free by German Court

NUERNBERG, Germany, Jan. 26-(A)-Franz von Papen, the old fox of diplomacy in Hitler's Reich, was set free today by a German de-Nazification court.

The court reversed his previous conviction as a major Nazi offender, the worst type of Nazi, under which he was serving an eight year sentence in a labor camp. It convicted him of being only an offender, the second category of Nazism.

Von Papen, Hitler's former ambassador to Austria and Turkey, has been imprisoned since the end of the war. The court, in

## Red Circus Gets Gavel

Judge Medina Cracks Whip as Commies Try To Make a Carnival Out of Conspiracy Trial

By S. BURTON HEATH **NEA Staff Correspondent** 

NEW YORK-(NEA)-The naion's 11 top Communists scoured the United States to get lawyers who are clever at making public circuses out of criminal trials. That array of eminent barristers set out, with all their skill, to break up the trial of their clients in Federal District Court.

But both lay and legal observers have a feeling that the Reds' counsel has met its match in a dapper, jovial chap named Harold R. Medina-newest judge on the Federal bench in the New York district. Presumably by the luck of the draw, he is presiding over what may prove one of the most famous trials in court historythe "conspiracy to overthrow" case against the big-wigs of U. S. Communism.

Judges of American courts seldom impress their personalities permanently on public consciousness. Maybe Harold Medina will be forgotten soon. But his friends think that already he has demonstrated a courtroom personality that will protect itself even above the vituperative uproar that defense counsel are creating.

In the trial preliminaries Judge Medina's usually good-natured remarks have been getting better newsplay than the calculated histronics of such actors as Harry Sacher of New York, Richard Gladstein of San Francisco, Louis E. McCabe of Philadelphia.

Thus far Medina has given defense counsel full opportunity to state and argue their objections to the trial, the jury panel, the judge, the police, the indictment Chance Slim on and a lot of other things. He has shown great patience. But he has shown ability to crack down when the sees fit.

"Any exclusion of any class or race would shock me."

When a lawyer asked "How does it happen that you never heard of these things?" Judge Medina grinned, and said: "I guess it must have been a conspiracy."

One lawyer thought he had the judge in a hole. He recalled that once, as an attorney, Medina argued before the Supreme Court against the jury-selecting system the Reds are attacking. "I thought you were a starry eyed reformer, filled with zeal against an unjust system," another defense lawyer chimed in.

"You know," Medina retorted amiably but finally, "I got licked in that case."

## Right In a Nutshell - That's The Story of Phillips 66 Premium Motor Oil

In a word, it's "Lubri-tection" your engine needs! And that means . . . ? Lubrication, of course! Tough, sturdy, oily action to keep things running smoothly. And, in addition, engine protection . . . protection that helps prevent the formation of sludge and varnish and the troubles they can kick up!

So make it a habit to stop in at the station where you see the famous orange-and-black Phillips 66 shield. Yes, to help control sludge and varnish . . . to help keep repair bills low . . . remember that magic word-"Lubri-tection". Get Phillips 66 Premium Motor Oil.

Chiang Kai-shek recalls the Drew Pearson column of November 20, in which he flatly stated: "Chiang Kai-shek is finished-even though he refuses to face the fact. He will be fortunate to hold on to his job for the next 60 days." It was exactly 61 days later that Chiang got out. Pearson predicted in the same column that Chiang's successor would be Li Tsung-Jen — who now has taken over.
